DALE | PRODUCT DEVELOPMENT DESIGN & ENGINEERING

PROJECT PROPOSAL

[PROJECT NAME]

CLIENT [CLIENT COMPANY]

REFERENCE [PROPOSAL REFERENCE] DATE [DATE] REVISION [REVISION]

DALE proposes a development scope for [PRODUCT OR SYSTEM]. This document sets out the activities, expected outputs and review points for discussion with [CLIENT COMPANY].

01 PROJECT OBJECTIVE

Develop [PRODUCT OR SYSTEM] for [INTENDED USE], with particular attention to [KEY REQUIREMENTS]. The agreed brief will define the interfaces, constraints and criteria used to review the design.

02 SCOPE OF WORK

PHASE	ACTIVITIES	DELIVERABLE
Define	Requirements and interface review	Development brief
Design	Concept development and selection	Concept package
Engineer	CAD development and assembly review	Engineering package
Validate	Prototype review and design revisions	Validation summary

The final scope will identify the required file formats, documentation depth and review criteria for each phase.

DELIVERY AND COMMERCIALS

PROJECT [PROJECT NAME] REFERENCE [PROPOSAL REFERENCE]

03 SCHEDULE AND REVIEWS

PHASE	PLANNED WINDOW	REVIEW POINT
Define	[WEEK OR DATE]	Brief approval
Design	[WEEK OR DATE]	Concept selection
Engineer	[WEEK OR DATE]	Engineering review
Validate	[WEEK OR DATE]	Prototype review

04 BUDGET

ITEM	AMOUNT
Development services	[CURRENCY AND AMOUNT]
Prototype and external costs	[INCLUDED OR QUOTED SEPARATELY]
Total	[CURRENCY AND TOTAL]

05 PROJECT ASSUMPTIONS

- Client inputs: [CAD, REQUIREMENTS OR OTHER MATERIALS TO PROVIDE].
- Review cycles: [NUMBER AND TIMING TO AGREE].
- External services and exclusions: [SCOPE TO CONFIRM].

06 NEXT STEP

Please confirm the scope and provide [MISSING INPUTS] so we can agree the project start and review dates.

- [KEY REQUIREMENT OR QUESTION]
- [REQUIRED FILE OR CLIENT INPUT]
- [PROPOSED REVIEW DATE OR NEXT ACTION]
